

# FY2014 System Integration Test

Derrick Snowden

DMAC Workshop Sep 2013

# 2014 the year of the test

## BUGS HAVE FEELINGS TOO

IF YOU FIND A BUG:  
REPORT IT

BUGS DON'T LIKE  
TO BE FORGOTTEN

IF YOU FIND A BUG:  
GET TO KNOW THEM

BUGS LIKE TO BE  
UNDERSTOOD

This ladybird  
has 3 spots

IF YOU FIND A BUG:  
TAKE A PHOTO

BUGS LIKE TO KEEP MEMORIES  
OF THE OCCASION

IF YOU FIND A BUG:  
GET TO KNOW THEIR MATES

BUGS ARE SOCIALITES

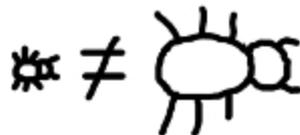

IF YOU FIND A BUG:  
REPORT IT QUICK

OTHERWISE BUGS SETTLE IN AND  
MAKE A HOME FOR THEM SELVES

IF YOU FIND A BUG:  
BE HONEST

BUGS DON'T LIKE  
GOSSIPS

IF YOU FIND A BUG:  
NOTE HOW YOU  
MEET THEM

BUGS ARE ROMANTICS

IF YOU FIND A BUG:  
DON'T IGNORE IT

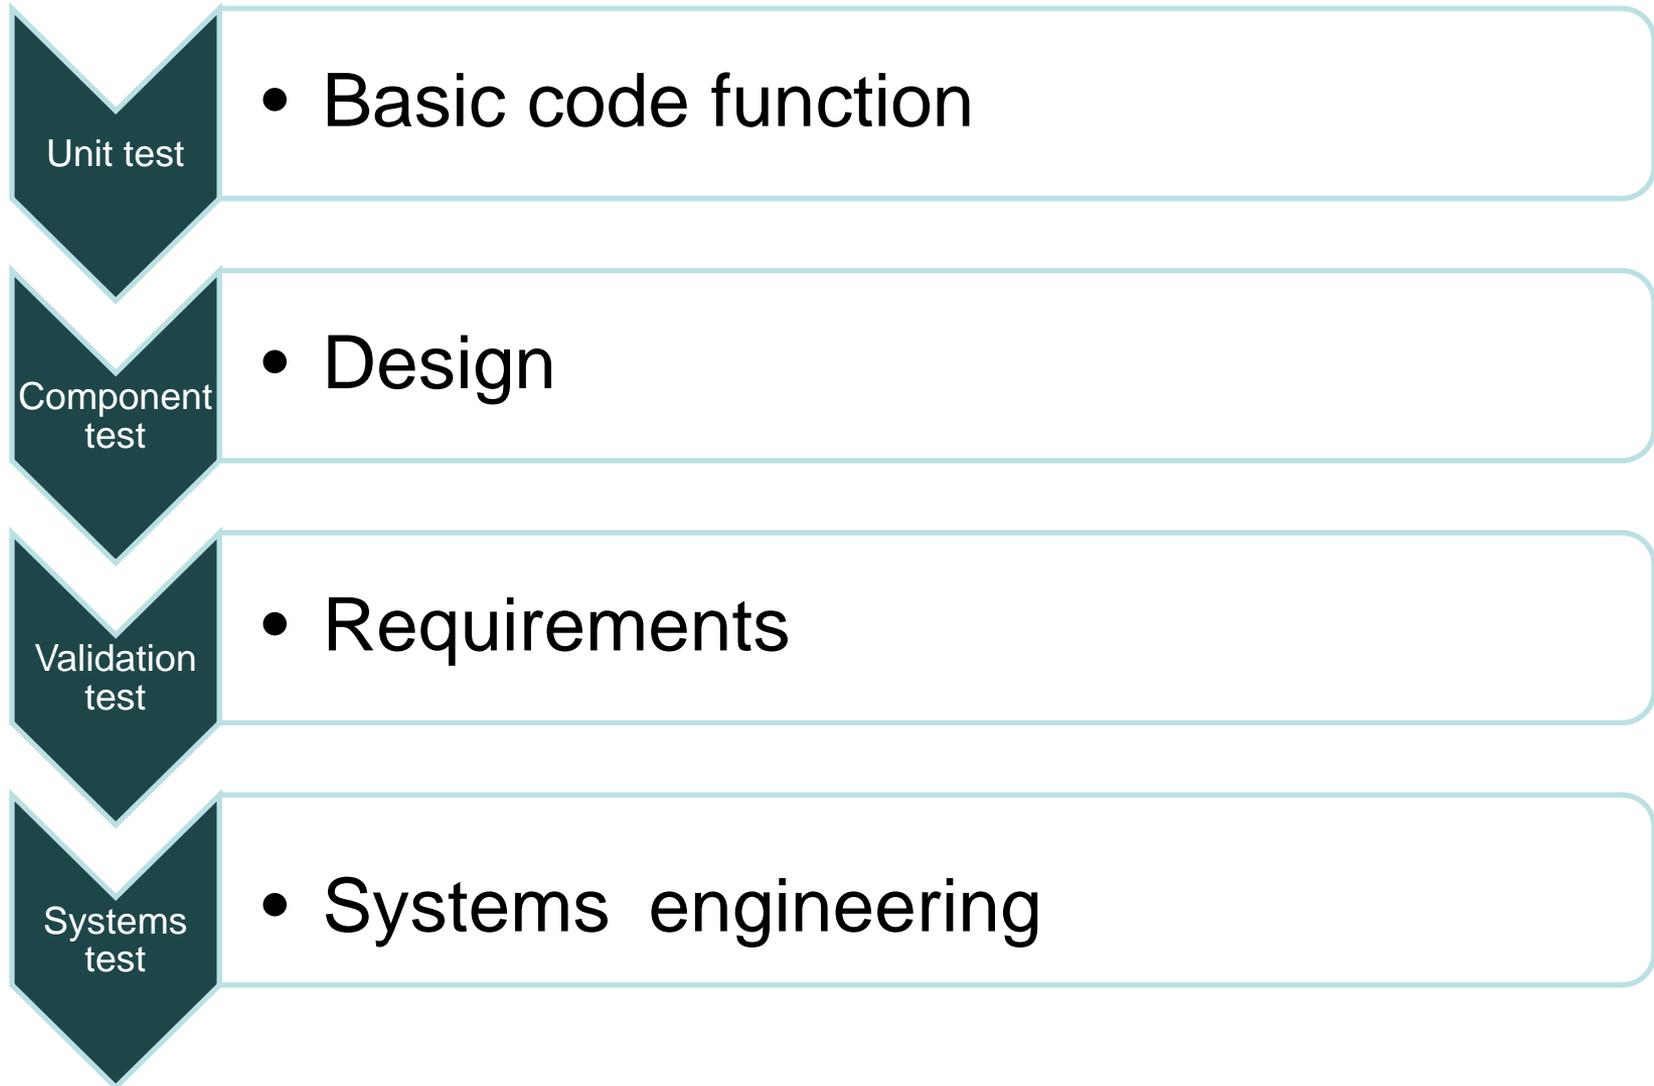

BUGS CAN BITE IF  
NOT APPRECIATED

# Software testing toolbox

# “The System”: distributed implementation of the publish/find/bind pattern

# Why should we do this?

---

- Exercise the existing IOOS distributed data discovery and publication implementation architecture to determine efficacy and identify needed improvements.
- Evaluate Regional/Federal adoption of DMAC
- Identify system constraints, performance issues, needed improvements

# How might we do this?

*Hurricane Sandy is pushing up the Eastern Seaboard and an analyst in coastal New Jersey has four hours to put together a map of the mean tidal amplitudes overlaid with areas where historical extremes indicate vulnerability to inundation.*

Can they find the data and make a map?

# How might we do this?

*Hurricane Sandy is pushing up the Eastern Seaboard and an analyst in coastal New Jersey has four hours to put together a map of the mean tidal amplitudes overlaid with areas where historical extremes indicate vulnerability to inundation.*

Can they find the data and make a map?

- Repeated application of basic publish find bind steps in different scenarios.
- IEEE testing process definitions
  - Input/predicted results/execution conditions

# What next?

---

- Project Initiation and Charter (DONE)
- Project Planning (Sep '13 – Dec '13)
- Scenario Identification (Dec '13 – Jan '14)
- Code/Test (Feb '14 – May '14)
- Analysis and Reporting (Jun '14 – Jul '14)

# Who's in?
